BUSINESS CLASS SEATS

The blocks installed to the left and right of the fuselage **consist of two seats**. The central seats block consists of three seats.

There is a console between the seats. The upper platform of the console is covered with a special anti-slip rug, which allows you to keep the wine glasses with drinks on it steady.

Opposite to each block of armchairs in the first row, there is a separate structure that will be fastened immediately behind the partition and will include niches for accommodating passengers' things and a footrest that is used with a fully laid out armchair.

AUDIO ALBUM SELECTION

The screenshot shows a music application interface for DJ Khaleed's album 'Grateful'. At the top, there are navigation icons: a home icon, a back arrow, a music note icon, and the word 'Music'. On the right side, there are icons for 'ATTENDANT VOLUME' (a person and a speaker) and 'MENU' (three vertical dots). The album title 'DJ Khaleed | Grateful' is prominently displayed. Below the title is the album cover art, which features a young child in a hot tub. To the right of the cover are two buttons: 'Play Album' (highlighted with a yellow border) and 'Add to Playlist'. Below these buttons is a list of tracks, each with a play button and an 'Add to Playlist' icon. The tracks are: 1. (Intro) I'm so Grateful [feat. Sizzla], 2. Shining (feat. Beyoncé & JAY Z), 3. To the Max (feat. Drake), 4. Wild Thoughts (feat. Rihanna & ...), and 5. I'm the One (feat. Justin Bieber ...). On the left side of the track list, there are icons for 'TRACKS' (three horizontal lines) and 'INFO' (an 'i' in a circle). At the bottom of the screen, there are playback controls: a back arrow, a play button, and a forward arrow. On the right side of the bottom, there are icons for 'SHUFFLE' (two arrows forming a circle) and 'PLAYLIST' (a music note with three horizontal lines).

— **UIA WI-FI**

UKRAINE
INTERNATIONAL
AIRLINES

MAY

UIA Wi-Fi is a global broadband in-flight connectivity service. It sets the standard for the next level of in-flight experience by delivering the broadband connectivity to the aircraft flying all over the world, even over the oceans.

This connectivity service enables the passengers to access the Internet, compose and send emails, log onto their favorite social media websites, or even watch videos on video-sharing websites in their own PEDs (Personal Electronic Devices). All Wi-Fi-enabled devices—laptop com-

puters, notebooks, tablet systems, and smartphones—can access the internet through UIA Wi-Fi.

Once the device is switched on and the user launches an Internet browser, the user is directed to our portal. Packages of duration can be purchased prior to the flight and onboard.
