Calculation method:

If the passenger's route includes segments located in the different zones, then the excess baggage charge is calculated according to the rate of zone with the maximum number for this entire route through.

Examples:

DNK-KBP-LWO – the rate of Zone 1

DNK-KBP-FRA – the rate of Zone 2

AMS-KBP-TLV – the rate of Zone 2a

(Zone 2a is considered higher than Zone 2)

ODS-KBP-JFK – the rate of Zone 3

LWO-KBP-BKK – the rate of Zone 3

ZRH-KBP-MEL – the rate of Zone 4

LWO-KBP-MLE – the rate of Zone 4

Where a number of fees apply for a piece of baggage, all of the relevant rates must be added together.

NOTE: In any case the free checked baggage allowance designated in the passenger ticket is leading, except the special cases of which UIA will advise additionally.
